

AiroClean420 Customer Feedback

Air Sanitation

FIREHOUSE ORGANICS

"We have been using the airoclean420 for the past 6 months with great success. Since implementing this system we have seen a reduction in powdery mildew. This in turn saves us money and peace of mind by not having to spray for these problems. With the world of growing always changing this device gives you the power to have the control in your hands. With less sprays comes less money on fungicides and less man hours wasted spraying leaving your employees free to handle other task without the worry of residual fungicides in your product."

Brian Matthews - Firehouse Organics

"Yes the Airoclean420 systems are working very well, the mold has disappeared from the grow, it was like magic that soon as I put up the last one the mold was gone! Excellent product I have recommended to many of my colleagues."

Adam Silvestri - Owner - NaturesAZ Medicines

"We were quite skeptical about the Airoclean420 at first. We had continually fought powdery mildew, it was always a struggle. Since installing units in veg and flowering, we saw a marked improvement immediately and subsequently, the PM issue has GONE AWAY. Thanks to the Airoclean420 our plants are producing better quantity and quality which is good for us and our patients".

Darcy Hansen - Owner - Mile High Remedies, LLC

"The AiroClean420 has really cleaned our air and in a BIG way! Thank you for making this an easy and informative process. After using the AiroClean420's for a month, we have tested with the lab and are now running totally clean!"

Gareth Nelson, Operations Manager - Waveseer

"Walking Raven's goal has always been quality and purity throughout the whole horticultural process. To keep purity, we needed something non-chemical. Then we were introduced to AiroClean420. We decided to use the unit in our warehouse and have had great results. Thanks for such a great product that's both safe and easy to use. The low power consumption is also a huge plus in our industry. Great Job!"

Nick Lothamer, Co-Owner - Walking Raven MMC

"We have been using the airoclean420 for several months now, and really like the results of using it. We would like to order 5 more for now, and purchase more in the future for our existing facility and our future facilities."

Wes Brodbeck, Cultivation Director, Choice Cannabis

"The AiroClean 420 unit was more than capable of reducing the presence of airborne contaminants across the board. . In conjunction with our IPM program the AiroClean 420 unit assisted in maintaining a final product that was completely free of contaminants as well as achieving an overall better air quality. The AiroClean 420 is a great addition to any cultivation center's preventative IPM program."

Trevor Hossterman, Good Meds Network

"I just wanted to send you a thank you for introducing Sundance Garden's to the AiroClean420 technology. We pride ourselves in having one of the cleanest operations in the state of CO and we still were fighting off powdery mildew. After installing AiroClean420, the next harvest had almost no issue with powdery mildew. I hope that it can help other businesses keep their operations cleaner and not have to worry so much about airborne fungi."

Jason Ray, Master Marijuana Cultivator - Sundance Garden's
